Individual Consultant Service as Health and Safety
Expert (International) for SASEC Dhaka-Sylhet
Corridor Road Investment Project

1. The Government of Bangladesh (GOB) has obtained a loan from Asian Development Bank (ADB) to partly finance the South Asia Subregional Economic Cooperation Dhaka-Sylhet Corridor Road Investment Project (the Project). The Ministry of Road Transport and Bridges (MRTB) is the sponsoring ministry and the Roads and Highways Department (RHD) under MORTB is the implementing agency for the project.
2. The project will be implemented under 13 numbers of civil work contracts. In each contract, the contractor will prepare and implement Health and Safety Management Plan (HSMP) as part of the construction/contractor's environmental management work plan (CEMWP). To ensure that the HSMP is properly implemented in the field during construction, the Health and Safety Expert (International) will assist the PIU along with the Project Implementation Consultants. By ensuring proper implementation of EHSMP, accidents during the implementation will be avoided, the health standards of the workers will be maintained at minimum acceptable standards, and the spread of any contagious diseases like COVID-19 will be prevented or controlled. Specialized Health and Safety consulting services will also ensure compliance with international best practices and the Health and Safety related legislations.
3. According to the latest ADB procurement guidelines, an REOI for this Consulting Service has been published electronically in the ADB Consultant Management System (CMS). The interested Consultants are hereby advised to access the REOI through the link below. The Consultants shall have to submit their Request for Expression of Interest (REOI) electronically through ADB CMS by 04 August 2022.

If any contradiction is found between CMS notice and Newspaper notice, the information on CMS notice shall prevail. For further inquiries/assistance regarding the service, please refer to the following CMS link:
